

Simpson®

Infinity Doors

*Doors
of a Lifetime*

A white Infinity Door with a gold handle, set in a room with a bed and a nightstand. The door features a classic panel design with a large arched top panel and smaller rectangular panels below. The room is decorated with a bed, a nightstand with a lamp and a teapot, and a floral arrangement.

Infinity Doors

PART OF THE PRIMED PACKAGE

from Simpson achieve a new standard in form and function. No other doors match their unique combination of beauty, detail and performance.

WHAT SETS INFINITY DOORS APART?

Rather than incorporating stile and rail construction, Infinity Doors have wholly integrated panels that are seamless with the rest of the door's surface. This manufacturing technique eliminates the possibility of panels shrinking or splitting, as well as stile and rail separation. Best of all, Infinity Doors are offered in a wide variety of designs at a price to fit nearly any project budget. For unequalled value and beauty, the choice is Infinity Doors.

Infinity Doors

- Patented precision design with integral panels provides uniform structural support.
- Seamless stile and rail with no possibility of separation.
- Will not shrink, split, warp or move.
- Doors are available in 1-3/4" or 1-3/8" thickness and feature tempered hardboard surface.
- Internal stiles have one-inch width with finger joint wood for ultimate screw-holding performance.
- Moisture resistant Type 1 glue internal construction.
- Solid continuous particleboard core.
- Raised or flush moldings installed to precision tolerances (.030 inch).
- Primed all six sides and ready to paint.
- One of both sides with molding or separate designs on each side.
- Customized designs are available. Our engineering lab will review all designs.
- Quality crafted with environmentally friendly materials in the United States.
- Door edges are beveled on both sides with a three degree bevel.

8212

Infinity Series molding with raised panels create a dramatic impression. Select either raised or flush molding.

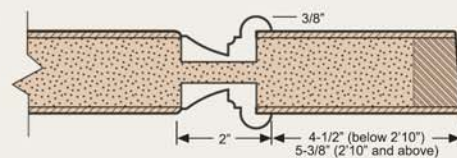

FIRE RATING

- 20 minute fire rating is included on all square top 1-3/4" Infinity Doors in sizes up to 8'-0".
- Positive pressure fire ratings of up to 60 minutes are available for selected units with raised panels.
- For more detailed fire rating information, contact Simpson Door Company.

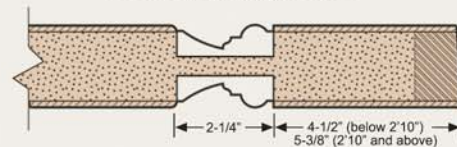

SPECIFICATIONS

THICKNESS:	1-3/4"
WIDTHS:	2'0", 2'4", 2'6", 2'8", 2'10", 3'0", 3'6", 4'0"
HEIGHTS:	6'8", 7'0", 8'0", 9'0"
STILES:	5-3/8"
TOP RAIL:	4-7/8"
BOTTOM RAIL:	10"
